

Rhino Kammbar®

KammBar® is the latest evolution in roof bar design, and can be fitted to all leading commercial vehicles.

Developed using the latest technologies in design and manufacturing, and inspired by the work of Professor Wunibald Kamm, Rhino has produced one of the most aerodynamic bar profiles to date.

The advanced aerodynamics don't stop with the bar design, as Rhino have also developed a new shaped aerodynamic load stop to work in conjunction with the KammBar®. Two pairs of load stops are supplied with KammBar® systems.

The KammBar® provides a great combination of strength and practicality. Manufactured from anodised aluminium. This anti-corrosive finish will assist preventing "rusting and weathering".

Features:

- Lightweight yet extremely strong
- Aids fuel efficiency
- Capable of carrying up to **75kg** per bar
- Aerodynamic shaped bar & load stops
- Pre-assembled legs
- Quick & easy fitting time
- Lockable leg cowls
- Manufactured from aluminium
- Anodised aluminium
