

Rhino SafeStep[®]

The SafeStep[®] has been designed to respect health and safety considerations, when loading / unloading roof mounted equipment or gaining access in or out of a vehicle. Additionally, the SafeStep[®] can provide drivers with peace of mind with optional reversing sensors with an audible warning of objects that are out of sight.

Features:

- Available in black or yellow
- Available with or without reversing sensors
- Twin or Triple step depending on vehicle
- TUV approved and 20g crash tested
- Standard reflective tape on each step
- Anti - slip tread plates
- Protected by electropaint
- This anti-corrosive finish will assist in preventing “rusting and weathering”
