

AssuredStep™

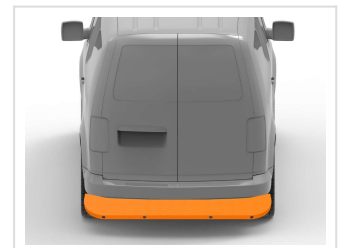

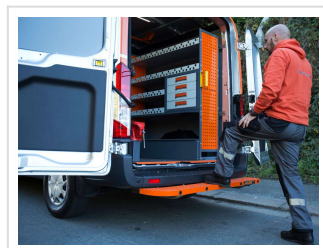

Designed for each vehicle's optimum height. Assured Step provides you a health and safety conscious solution when you're regularly entering or exiting your vehicle.

A practical, no nonsense rear step, ASSURED STEP™ also offers improved access to your roof load area so it's not only fit for purpose it's extremely affordable too.

Features:

- An aesthetically pleasing 'Made in Britain' one piece phosphated, steel step which is then powder-coated to provide strength and excellent weather proofing.
- Anti-slip tread plates as standard.
- An ideal product when the user is carrying items in or out of a vehicle.
- Aids rear access to your roof load area, rear roof bar, rear roller system, rear load stops or pipe tubes.
- Fits most commercial vehicles* as the step itself varies between 1,400 and 1,600 mm wide (depending on your van) and is 43mm deep.
- Supplied with van specific out rigger arms for ease of fitment to the main vehicle chassis.
- Sold without reversing sensors but is supplied with pre-lasered holes for after-market supply & fitment.
- Possible to be fitted by one person.
- Please note weight limit associated with this product is 127 kilos (20 stones).
