

Rhino SafeClamp®

The Rhino SafeClamp® incorporates strength, speed and style to provide a revolutionary ladder clamping system.

Use of a composite beam structure and stainless steel anchor hook offers high strength, whilst providing excellent corrosion resistance. The innovative one touch clamping method ensures that the operation is five times quicker than traditional screw down ladder clamps.

Security is taken care of using the integral lock that sees an end to the days of rattling and easily lost padlocks.

Features:

- Manufactured from tough composite materials
- 5 x faster than standard ladder clamps
- 20g (ECE17.07) crash tested
- Accommodates up to 4 nested ladder sections
- Excellent corrosion resistance
- Life cycle tested (UKAS IS017025)
- TUV tested
